Predictive Modeler

At Great West Casualty Company, our mission is to be the premier provider of insurance products and services for truckers. Our identity, business, and success are linked to trucking, the industry that moves our nation's economy. If you desire to work for a stable company that is a leader in the industry, then we have a terrific opportunity for you.

As a Predictive Modeler, you will be responsible for researching and developing predictive models in support of our company objective. We are looking for someone with a strong statistics background who enjoys problem solving and analyzing complex data.

Candidates need to have at least:
- ★ Master's degree in statistics.
- ★ Experience developing statistical models a plus.
- ★ Some general knowledge and understanding of Actuarial Science preferred.

We offer you a challenging career with a competitive compensation and benefits package. To learn more or to apply, please view the career section of our website at www.gwccnet.com. After visiting with us, you will agree that at Great West...The Difference is Service®.
