

**COLLOQUIUM SERIES:
FALL 2015**

**TECHNOLOGY TOOLS FOR
RESEARCH:
AN OVERVIEW OF ITS-RESEARCH
SERVICES**

Abstract:

ITS-Research Services provides technology tools to support computational and data intensive research across the University of Iowa campus. Ben Rogers will provide an overview of the current and planned services that include high performance computing, data storage systems, training opportunities, collaboration on technology focused grants, and more.

ITS-Research Services also acts as a key component of the services aspect of the University of Iowa Informatics Initiative (UI3). An update on UI3 and developments of potential interest will also be presented.
