- 34 Eqn. (3.37) There is a minus sign missing on the righthand side of the second equation. It should read

$$\beta_1 = \beta \cos(\Phi), \quad \beta_2 = -\beta \sin(\Phi)$$
- 37 Eqn. (3.4.5) Two of the coefficients in the table above Eqn. (3.4.5) need to be corrected. The 1.71 coefficient for $n = 25$ should be 1.66 and the coefficient 1.75 for $n = 50$ should be 1.70.
- 75 Eqn. (4.3.24) In this equation ϕ_1 should be replaced by $\phi_1/2$.
- 89 Eqn. (5.1.6) The equation should read $Y_t = Y_{t-1} + e_t$
- 113 Eqn. (6.2.2) The final subscript on Y in the top part of the equation should be as follows:

$$\phi_{kk} = \text{Corr}(Y_t - \beta_1 Y_{t-1} - \beta_2 Y_{t-2} - \cdots - \beta_{k-1} Y_{t-k+1},$$

$$Y_{t-k} - \beta_1 Y_{t-k+1} - \beta_2 Y_{t-k+2} - \cdots - \beta_{k-1} Y_{t-1})$$
- 200 Eqn. (9.3.32) There is a factor of θ missing in the last term. It should read $\hat{Y}_t(\ell) = \mu + \phi^\ell (Y_t - \mu) - \phi^{\ell-1} \theta e_t$
- 218 Eqn. (9.E.2) The right side should read $\int_{-\infty}^{\infty} h(y)f(y|x)dy$.
- 226 Eqn. (9.H.23) The variance σ_e^2 should not appear in the RHS denominator. That is, the equation should read

$$\sigma_e^2 = \sum_{t=1}^n \left\{ \frac{[y_t - y(t|t-1)]^2}{v_t} \right\}$$
- 226 The end of the sentence that follows Equation (9.H.24) should end with σ_e^2 rather than σ_e^2 .
- 265 Eqn. (11.4.2) On the right side of the last equals sign, a left bracket ($($) is missing and a backshift (B) is misplaced. The equation should read

$$\tilde{X}_t = X_t - X_{t-1} - \phi(X_{t-1} - X_{t-2}) = [1 - (1 + \phi)B + \phi B^2]X_t$$
