STAT:2010/4200, Statistical Methods and Computing
Spring 2017
Instructor: Cowles
Information on Final Exam

- The final exam will be given
  Wed 05/10/2017
  12:30PM - 2:30PM
  Shambaugh Auditorium, Main Library

- Please leave an empty seat between students. There is room in the exam room to do that.

- The final is cumulative. All material mentioned in the descriptions of the midterms could also appear on the final.

- Questions will be mostly short answer and multiple choice. Some will involve interpreting SAS output that I will provide.

- You may bring:

  - up to four 8-1/2 x 11 sheets of paper with your own notes (the three from your midterms, plus one more)

  - the normal, t, and chi square tables from your textbook

  - a calculator

- Short answer questions and interpretation of computer output will be similar in style to homework problems. Doing unassigned textbook problems would be an excellent way to prepare for the exam.
