

22S:166, Computing in Statistics  
Fall 2008  
Instructor: Cowles  
Information on Midterm 1

- Midterm 1 will be given in the PC lab, 41 Schaeffer Hall, on Wed. Oct. 1. You will use NX Client to log in to a Linux machine.
- There is a choice of two times to take midterm 1:
  - 1:30 - 3:30 p.m.
  - 2:30 - 4:30 p.m.
- The midterm will cover the following topics:
  - Linux
  - L<sup>A</sup>T<sub>E</sub>X
  - R commands, functions, and packages
  - Sweave
  - the nonparametric bootstrap and confidence intervals
- You may use notes, computer files, on-line resources; in short, anything except other people!
