

22S:30/105, Statistical Methods and Computing
Spring 2008
Instructor: Cowles
Information on Midterm 3

- Midterm 3 will be given Fri. 5/02 in class.
- It will cover the following portions of the textbook:
 - Chapters 19, 20, 21, 22, 23, 25
- It will cover lecture and lab material presented through 4/23.
- It will not include regression.
- Questions will be mostly short answer and multiple choice. Some will involve interpreting SAS output that I will provide.
- You may bring:
 - one 8-1/2 x 11 sheet of paper with your own notes.
 - the normal and chi square tables from your textbook
 - a calculator
- Practice problems have been posted.
- Short answer questions and interpretation of computer output will be similar in style to homework problems. Doing unassigned textbook problems would be an excellent way to prepare for the exam.
